Subject: RE: Meeting to discuss OOOOa issue

I'm not sure off the top of my head, but can look at it later this afternoon and Monday. I'm cc'ing a few enforcement folks that may have some knowledge on this –

This is the issue – they are wanting to know about the monitoring and repair schedule for a valve in a main natural gas line that isn't indicated to be a part of the compressor station. Are there any implications for OOOOa? Are there other rules that may apply?

Kinder Morgan has requested this meeting to discuss 40 CFR 60 Subpart OOOOa compliance at Southern Natural Gas (SNG) Thomaston Compressor Station. The facility has been applicable to OOOOa since 2017. During initial monitoring at the site, a mainline valve (MLV), which is not a part of the compressor station, was inadvertently monitored by the third party LDAR contractor. The purpose of this meeting is to discuss the monitoring and repair schedule for this MLV.

Katy,

Kinder Morgan has requested this meeting to discuss 40 CFR 60 Subpart OOOOa compliance at Southern Natural Gas (SNG) Thomaston Compressor Station. The facility has been applicable to OOOOa since 2017. During initial monitoring at the site, a mainline valve (MLV), which is not a part of the compressor station, was inadvertently monitored by the third party LDAR contractor. The purpose of this meeting is to discuss the monitoring and repair schedule for this MLV.

We will not be bringing any Legal counsel to this meeting.

Please let me know if you have any additional questions.

Thanks,
-Zainab

[This email message was received from the Internet and came from outside of Kinder Morgan]

Hi Zainab

I wanted to check in again on when you might be able to provide more information on your questions or concerns regarding 63 Subpart OOOOa (Oil and NG facilities). It will make the meeting much more productive if we can be familiar with the specific topics before you get here on Tuesday.

Just so you are aware, I have invited additional members of our Stationary Source Team to participate. Also, I wanted to confirm that you would not be bringing any legal counsel to the meeting, correct?

Thanks,
Katy

David,

As I mentioned on the phone, I was hoping to schedule a face-to-face meeting with you (and Katie) to discuss OOOOa at a Southern Natural Gas compressor station that is located in Georgia. If you have some time the week of May 28, I would appreciate it. If that does not work, please let me know what date and time will accommodate your schedules, and we will coordinate something.

Thanks in advance,
-Zainab
